GILBERT COWAN WRITES THAT HIS SECTION WILL SOON GO "OVER THERE"

Editor Evening News,

Dear Folks at Home:—How well do I know that a word from a soldier would be appreciated in the home paper now that personal letters cannot be published. Therefore I am going to bother the camp censor with a little information for you folks at home.

My "buddies"—squad mates—are all thinking of "home" now for we are getting ready to go "over there" where we'll work in the behalf of liberty. I use the word "work" advisedly as that is what one actually does in an Aviation Supply Squadron. We are workers who support the fliers. And the latter can do a whole lot of damage to the enemy in little or no time. On the subject of work, let me say the boys learn to work, as well as live, in the army or at least the Signal Corps branch of the service.

While we are being equipped with clothes and other trappings for service on the other side, our physical equipment is being improved so that the wear and tear over there won't split our brains or rip our muscles. With a lot of fatigue duty around this camp such as grubbing stumps, digging ditches, etc., the boys are developing muscles, eating hearty meals and developing into men instead of remaining over-grown kids.

Army life of this type is enjoyable. No drilling with rifles is required of the Supply Squadrons but lots of formations and healthy exercise makes the old men look younger and the young men look healthy. As our commanding officer said, the men in this squadron are a bunch of energetic workers and they get fat on fatigue.

While I can't say that work made me fat—and I am that—I am enjoying myself in many ways. The opportunities, chances for character study, acquaintanceships and cosmopolitan environment make a person feel that the world is so big that life in years to come will be sweet—flavored with richer experiences than one's natural treasure trove gave vantage. There are men in our 150

## ABRAHAM LINCOLN

### THE SPIRIT OF THE GREAT WAR PRESIDENT SURVIVES IN THE HEARTS OF HIS COUNTRYMEN

Tomorrow, Lincoln Day, is the birthday of "the great emancipator," one of the greatest figures since the Man of Galilee. It is well that we give pause and think for a few moments upon the life of the immortal President of the United States, Abraham Lincoln.

This is peculiarly apropos since we are passing through a time of fiery trial not unlike that which tried Lincoln and found him to be true gold, through and through. It may be a bit premature, and the opinion not quite that which is made after years have calmed our thoughts and ideas, but we feel that Woodrow Wilson is America's second Lincoln and therefore we should connect our thoughts of appreciation and admiration of Lincoln and his service to our country and to humanity with similar thoughts about Wilson and the critical time through which this country and the whole world is now passing.

Lincoln Day is a national holiday of more than passing note. Too often it is celebrated only among our school children and the importance of the life and work of the man who worked his way "from log cabin to White House" is missed. Let us catch the wonderful spirit which actuated Lincoln and with it burning in our souls we will work with renewed effort to accomplish the greater and broader emancipation which has yet to be accomplished—the smashing of the shackles of slavery to autocracy, Prussianism and such like.

The members of the local chapter of the American Red Cross are going to celebrate Lincoln Day with a great patriotic entertainment. There will be many interesting reminders of "old Abe," anecdotes, poetry and remarks prompted by Lincoln and his great life work. Then there will be numerous musical numbers by professional entertainers and singers who have agreed to lend their services on behalf of a work as noble and honorable as that of "America's greatest President."

We urge your attendance as a patriotic duty.

Eight o'clock at the High School Auditorium on Lincoln's birthday.

## SPECIAL INDUCTION

WEALTHY BURBANK RANCHER ENLISTS FOR WIRELESS SERVICE

Another man was sent forward Saturday by the Exemption Board, Robert Ashley Petty of Burbank, a well to do rancher who has been making \$250 a month on alfalfa but who enlisted in spite of the fact that if called he could have made a claim for exemption as an agriculturist. His family also have large holdings in cotton lands. He has taken special training as a wireless operator and will go into that branch of the service. In order to get him into the army the board had to arrange with the Provost Marshal at Sacramento for his special induction. Men like that who want to go and who are willing to sacrifice their financial interests for the privilege of serving their country make the finest kind of material and there are thousands of them serving under the flag.

The Exemption Board has received instructions from the Provost Marshal General at Washington that a correct and complete list of all the men it has sent forward who are now in service and who have not been discharged after reaching camp, must be supplied to his office. Records of this kind which have heretofore been kept at the mobilization camps will hereafter be taken care of at the office of the Provost Marshal General where all book-keeping of that character will be done. He is securing these lists as a foundation for that bookkeeping work.

### CARTERS RETURN

Mr. and Mrs. George D. Carter of Milford street returned Saturday after a very pleasant trip of several days' duration in the San Joaquin valley. The Red Cross knitters are glad to welcome Mrs. Carter back at her accustomed place, as chairman of knitting of the local chapter. Mrs. Carter has been very faithful in this work and her many friends are hoping the rumor that the Carters are to locate in the San Joaquin valley is unfounded.

### BEWARE OF INCOME TAX PENALTY

If you are married, and your income was \$2000 or over in 1917, or if unmarried and your income was \$1000 or more, you are liable to heavy penalties if you do not obey the Income Tax law. The Income Tax Primer, a book of 45 pages issued by the government, tells you exactly what to do in simple language. Write for a free copy to Congressman Charles H. Randall at Washington, D. C.

### SYLVESTER W. TROFHONG

February 10th Sylvester W. Trofhong, who has been a resident of Burbank for the past eight or nine years, died at the age of 75 years, leaving a wife and several children, all adults. Funeral services will be held Tuesday at the family residence, 477 Orange Grove street, Burbank, and interment will be made in Grand View Cemetery, Soevern, Letton & Frey having charge. Mr. Trofhong was related to the distinguished Bainbridge family of Kentucky.

**WEATHER FORECAST**—Fair tonight and Tuesday. Light frosts. Westerly winds.

## EIGHTEEN CALIFORNIA BOYS MISSING

NUMBER MAY BE REDUCED WHEN CABLES GIVING NAMES OF TUSCANIA SURVIVORS ARRIVE

(Special Service to Glendale Evening News)  
SAN FRANCISCO, February 11.—Eighteen California boys aboard the submarined transport, Tuscania, in the list of 345 men are still unaccounted for.

The belief is prevalent here that as additional survivors are reported in delayed cables, California's loss will be reduced.

Of the eighteen still unaccounted for eleven belong to an aviation unit and seven to the 20th engineers.

## TROTSKY ORDERS COMPLETE DEMOBILIZATION

"THE WAR WITH THE CENTRAL POWERS HAS ENDED," SAYS MINISTER, RECALLING TROOPS FROM FRONT

(Special Service to Glendale Evening News)  
AMSTERDAM, February 11.—"The war with the Central powers has ended," Leon Trotsky, Bolshevik foreign minister, declared in ordering the demobilization of Russian forces on all fronts.

Trotsky refused to sign a peace pact with the Central empire, but the withdrawal of the Russian forces is regarded as the step necessary to save Russia from the threatened German invasion since the Kaiser delivered a virtual ultimatum to Russia for a peace agreement.

However, the demobilization of the Russian army means that nation is through as a factor in this world war.

## OFFERS OLIVE BRANCH TO AUSTRIA

PRESIDENT DISCUSSES BASIS OF PEACE NEGOTIATIONS BEFORE JOINT SESSION OF CONGRESS

(Special Service to Glendale Evening News)  
WASHINGTON, February 11.—President Wilson openly invited Austria to a further discussion of peace with the United States in a remarkable address today to Congress in joint session.

The president laid down the basis for such peace negotiations. "Austria," he said, "seeing and conceding the essential principles involved and the necessity for applying them, can respond to the purpose of peace terms as expressed by the United States with less embarrassment than Germany."

While offering the olive branch in the discussion of the basis on which peace terms might be discussed with Count Czernin, the president took a shot at the heart of German deceit and stripped Chancellor von Hertling's reply to the president's first war aims' address of its duplicity.

The basis of future negotiations depends on the following points, he said:

1. That each point in the final settlement must be based essentially on justice to the participants and such adjustments must be made as will be most likely to lead to a peace that will be permanent.
2. That peoples and provinces are not to be bartered about from sovereignty to sovereignty as mere chattels and pawns, but
3. That every territorial settlement involved in the war must be made in the interest of and for the benefit of the people of the territory and not be a part of any mere adjustment among rival states.
4. That all well defined national aspirations should be accorded the utmost satisfaction without introducing new or perpetuating old elements of discord likely to break the peace of Europe and consequently of the world.

On this foundation the president declared, "A GENERAL PEACE CAN BE DISCUSSED."

"Until such a peace is attained," he said, "WE HAVE NO CHOICE BUT TO GO ON."

### U. S. WRITES EIGHT BILLION INSURANCE

WASHINGTON, Feb. 11.—The War Risk Insurance campaign to make the army and navy "100 per cent insured" ends tomorrow, with the announcement that final figures will show eight billion dollars worth of insurance written by the greatest insurance project.

Tomorrow is the last day on which most of the men and women now in the service on or before October 15, 1917, can apply for the government insurance against death and total disability. Those who joined the service after October 15, 1917 have 120 days hereafter in which to apply.

The War Risk Insurance campaign in a few months, has written more insurance than any other insurance company in existence.

Insurance officers distributed in the various camps, have made special efforts to get every private and officer to come under the provision of the act.

The original plan to insure one million men by means of a competitive insurance selling campaign in the camps of the National Army and National Guard will be carried out it was announced today.

Up to the close of January 24, applications for \$4,486,986,500 of in-

surance had been received by the Bureau of Risk Insurance from 530,492 men in the service. This is expected to have been doubled since then.

The first payment by the United States government under the Military and Naval Insurance Act to the dependent of a soldier or sailor killed in action was made to Mrs. Bettie Ingram, 504 Third Street, Pratt City, Alabama, widowed mother of Gunner's Mate Osmond Kelly Ingram, killed October 15, 1917, when the U. S. S. Cassin was attacked by a German submarine.

Reports from camps to the Bureau indicate great increases in the number of applications. In a short time a speedy working machine has been created in the camps, with the men who have never sold a dollar of insurance in their lives beating world records in the number of applications obtained.

In one camp the entire personnel of a machine gun company applied for insurance five a minute following the caving in of a pit in which the soldiers were target practicing.

The death of a soldier a day after he had taken out insurance caused a general demand for applications from an entire regiment.

## DR. BREWER TO SPEAK

LINCOLN'S BIRTHDAY TO BE OBSERVED BY TUESDAY AFTERNOON CLUB

Dr. J. W. Brewer of the California State Normal school has been secured to address the members and friends of the Tuesday afternoon Club tomorrow afternoon at 2:30 at Masonic hall. The subject of his lecture is the education of children for social responsibilities. This theme should have an especial appeal and it is hoped that a large number will be present to listen to this distinguished educator.

An important matter to be brought up at tomorrow's session is the proposed amendments to the constitution as read at the last regular meeting. These will be passed on at this time. Members should be out in full force to have a voice in this transaction.

The Glendale Union High School orchestra will furnish patriotic music for the occasion.

### MEMORIAL SERVICES

The annual Memorial services of N. P. Banks Post and Corps were held at their hall Sunday, February 10th, at 3 p. m. with a good attendance. Exercises opened with a song by the Veterans' Glee Club, "The Vacant Chair," Prayer by Chaplain C. R. Norton, reading of names of Comrades who died during the past year, by the Adjutant T. M. Barrett. A beautiful solo by Dr. P. O. Lucas of the Sons of Veterans; a very able address by Chaplain Norton, an original poem by Comrade Geo. W. Sanford; R. M. McGee responded very ably in behalf of the Sons of Veterans and Mrs. Adelaide Immler on behalf of the W. R. C., followed by responses from other Comrades; a song by the Veterans' Glee Club; "America" sung by the audience and the benediction by the Chaplain.

Following are the names of Comrades and members of the W. R. C. who passed away during the past year:

Wm. K. Dobbins, Private, F 53d Indiana. Died Feb. 6, 1917.

### PARLIAMENTARY LAW

Everyone expecting to take an active part in meetings should become sufficiently familiar with Roberts' Rules of Order, Revised. This familiarity can only be acquired by actual practice.

The parliamentary law class of the Tuesday Afternoon Club meets at 1:30 p. m. on club days. The members of this section have a most happy time and can give the information and actual practice of correct parliamentary usage. Every member of the Tuesday Afternoon Club will be given a most cordial welcome by the curator, Mrs. Harry Greenwalt.

### THE POLISH RELIEF FUND

The war benefit given at Hotel Maryland in Pasadena last Friday night for the Polish Relief fund which is being raised by Paderewski and in which John Roman of this city has been actively interested, was a very nice affair although owing to competing attractions the attendance was not as large as had been hoped for. The program included some fine musical numbers, Julius Kranz of Glendale, being one of the artists. Another number which was much appreciated and which won warm applause was the fancy dance contributed by Miss Marie Hearnshaw, daughter of Mr. and Mrs. J. F. Hearnshaw of Lomita avenue.

### HAZZARD LECTURE POSTPONED

The lecture which was to have been given at the City Hall tomorrow morning by Mrs. Jessica Hazzard, under the auspices of the local committee of the County Council of Defense, has been postponed because Mrs. Hazzard, who has been in the north, is obliged to remain there a few days longer, for a conference of State officials.

## DISTRICT FEDERATION

MOST SUCCESSFUL CONVENTION OF WOMEN'S CLUBS EVER HELD ON COAST

All reports from Santa Barbara agree that the great District Federation of Women's Clubs held in that city last week presided over by a Glendale woman, Mrs. Mattison B. Jones, was the finest convention of its kind that has ever been given on the Pacific Coast.

Besides the credit of furnishing the president Mrs. Mattison B. Jones, who was responsible in no small degree for the general program of the convention and for its successful production, the Tuesday Afternoon Club of this city is credited with furnishing the book from which the beautiful pageant which was given on Thursday evening was arranged, and also with supplying the truly royal robe worn by Mrs. Jones as queen. The programs were pronounced the handsomest specimens of typography the federation has ever distributed, and those too were Glendale products.

When asked what she considered the outstanding feature of the gathering, Mrs. Jones said: "Each day was just as good as the one before. If I were to try to pick out the best day, I couldn't conscientiously select any one because all were so good. We started with a big crowd and ended with a bigger crowd than we started with. Dr. Jessie Russell, who has been a delegate to forty-eight conventions said it was the best one she ever attended. Mrs. Cable, the State President, also stated from the platform that it was the best district convention she ever attended. We had our business the first day in the morning, and left the best part until the last and everybody stayed until the end. There was a large local attendance, particularly of men, more men than I have ever seen at such a meeting before, and the convention was absolutely harmonious. In view of the critical times we had not expected any such attendance or such a manifestation of interest. We attribute it largely to the fact that in our program we considered the vital topics of the day, we got people capable of handling them and everything was carried out as planned with but one disappointment, Mrs. Cowles did not get back in time. Such men as Judge Bledsoe left the bench to come to us, Albert Shiels, Superintendent of Los Angeles Schools abandoned his work to address us." (Continued on Page 4)

## AT KELLY FIELD

THOS. PHILP WRITES OF LIFE AMONG BIRD MEN AT SAN ANTONIO

Thos V. Philp, son of Mr. and Mrs. V. Philp of 225 Orange Street, writes as follows:

Kelly Field, Texas, Feb. 7, 1918.

Dear Sir:—My folks send me "The News" every week and I have read some very interesting letters in it from the different enlisted men. I have never seen one from this camp so will tell you a little about it.

There are several thousand acres in the fields, parts of which are covered with tents, barracks, warehouses and airplane hangars.

There are two large open fields, Kelly Field No. 1 and No. 2 from which the airplanes start and land. The sound of the machines in the air is so common that no one looks at them but the new recruits. There are fifty or sixty airplanes flying every day except Sunday, sometimes as many as thirty-five may be seen at one time in the air.

Out of the thirty thousand or more men here I have met only one from Glendale, he is Chas. Potter, formerly of the Central Market. He has been flying here for some time and expects to finish his training this week.

The squadron I am in is housed in wooden barracks, we have our own mess hall and certainly have the best of everything to eat. For supper tonight we had macaroni, pickled beets, hash made of meat, carrots and beans, bread, canned California apricots, stewed apples and lemonade. For breakfast we have California grapefruit, different kinds of cereals, corn fritters, or hot cakes with syrup, also coffee and sometimes ham or bacon. Sundays we generally have chicken, sometimes corn veal, also cauliflower, peas, corn and sweet potatoes.

I would be glad to hear from any one interested in the Aviation Section of The Signal Corps therefore my address.

THOS. V. PHILP,  
633 Aero Squadron, So. San Antonio, Texas, Kelly Field No. 1.

## WHEN THE ROSES BLOOM

Each day we receive reports of ice jams in the rivers and lakes, blizzards and suffering in the east and middle west and reports of the hunger and cold being suffered by the people living in those regions and each day after we have read these reports in the newspapers we go forth into the sunshine and breathe the fresh air and maybe pick a rose from a nearby bush and then forget about what we have read. Truly it is hard for those of us living here among all this splendor to realize just the amount of suffering our brothers are undergoing in their ice and snow bound regions. And yet, the people who are enjoying all of these beauties and sunshine do not seem to realize just how fortunate they are or there would not be so much discontent and such a feeling of unrest as we often hear expressed on all sides.

Maybe there is a little more money being made in some of these eastern and middle west state—there should be for they are more thickly populated and they are much colder—but no where in the union can weather be found that affords such comfort as here in the state of California and no where can all people, poor and rich alike, enjoy themselves as they can here—and the people should be more satisfied than they are.

While we are each day feeling a sense of oppression over our "needs" and feeling that some one is getting more than we are, let us pause for a short time and think of those people who, in a cold and now cheerless country, are compelled to forego the pleasures of a warm fire for a day or two a week in order to save on coal. We here can save on coal 365 days a year so why should we be grumbling so much? Truly the flowers and the sunshine more than make up for some of the other discomforts—if there are any.

And then, too, California is now preparing to enter upon a new line of development, or inducement to the settler to come here and live. The state is preparing to sell lands upon which houses have been built to the prospective settler so that the settler can at once become a producer. The project is to be carried on under the supervision of Dr. Elwood Meade, of the University of California, and others and the state has been asked for an appropriation of \$260,000 to carry on the experiment. The plan embraces the purchase of a tract of 10,000 acres or more with suitable water supply which will be divided into smaller acreages and after homes are built offered to the prospective buyer at nominal figures. The plan, it is believed, will prove very popular and if it is the state may enter the game on a larger scale.—Redondo Reflex.

## LET'S BUILD THEM

Without any question that which this country needs most to make itself efficient in the great war is ships.

Secretary of War Baker says we have a million men ready for service in France but we need the boats to take them there and keep them supplied.

Millions of tons of supplies for the fighters are standing on our docks because we need the boats to take them over the seas.

Australia has 300,000,000 bushels of wheat ready to go to the hungry souls across the sea but they cannot go, for there are not ships to take them.

Argentina has vast supplies of food that would greatly assist the allies but we have not the boats to take them.

Food will win this war, we are told, and boats will bring the food, but we have not the boats.

Why then do we not take such steps as will bring the greatest possible production of boats?

There are thousands of men who can be put to the work of ship building.

There are thousands of tons of steel going into pleasure automobiles that can go into ships.

There are thousands of trees than can be cut into the necessary lumber for ships.

There are thousands of acres of land available for ship yards.

There are hundreds of industrial giants who can direct the necessary ship-building operations.

There are millions of dollars in capital which the government, through one means or another, can divert to the ship-building industry.

All we need is the governmental determination that ships shall be produced in any necessary number to take our men, materials and resources to the fighting front.

It seems wrong to defend our lack of greatest effectiveness by stating that we are doing all that can be done without ships.

We should first prove that it is impossible to build more ships and this we cannot prove.

Ships can be built faster than we are building them.

Let's get on the job and get ready the means of transportation as well as the things to be transported—Hollywood Citizen.

## REGISTRATION BOARDS TO BE PAID ON BASIS OF MEN CLASSIFIED

New regulations from the office of the Provost Marshal General in regard to compensation of registration boards read in part as follows:

"The rate of compensation for members of local boards up to and including the completion of the final classification of the registrants within the respective jurisdiction of said boards shall be on the basis of 30 cents, as aggregate compensation to the membership of a local board, for each registrant to whom a questionnaire shall have been mailed and who shall have been finally classified in accordance with the provisions of these regulations.

"Money due for said work shall be paid in proportionate amounts to each member of a local board claiming compensation for his service, unless it shall be requested by the unanimous vote of the local board that the moneys due should be paid in some other proportion. In such case no one member shall receive more than 15 cents of the allowance of 30 cents for each classification and no two members shall receive more than 25 cents for each classification to be distributed between them."

## GETTING THE HABIT THAT MAKES PEOPLE RICH

Rich men save to get money to invest. Their investments make more money for them to invest. Savings come first, you see, and they can be made a habit.

The government of the United States is giving us all a chance to own its own "stock," and it wants to help us build the thrift habit.

A quarter is all you need to start. At your postoffice, from your postman, your bank or store, you can get a thrift stamp for a quarter. They will give you a card. Stick your stamp on this card. Every spare quarter you can get will buy another stamp, and you will be surprised how soon you will have sixteen of them attached to your card. If your card is filled before March 1, you can add thirteen cents and get a War Savings Stamp that will draw interest to make it bring in \$5 on January 1, 1923. Five Dollars for \$4.13! and Uncle Sam guarantees the payment.

This is your opportunity—start now—try to fill your card! You can buy your War Savings Stamp in February for one cent less than in March.

The money you thus invest in Thrift Stamps or War Savings Stamps will help our country to win the war; the thrift habit will be a sure help toward your happiness.

## OPPORTUNITY FOR SERVICE OPEN FOR MEN WHO "KNOW" HORSES

Men not of selective service age who are accustomed to handling horses have opportunity for specialized service in the enlisted Veterinary Corps, enlistments for which are now being taken. The 2,000 men wanted include veterinary and agricultural students, farmers, stablemen, and others who have had experience handling horses. Pay ranges from \$30 to \$56 a month, with clothing, food, and quarters. Application for enlistment may be made at any Army recruiting station.

In the dark days of the Civil War President Lincoln now and again set apart a day for special prayer. Has the nation outgrown the need for such a day? Would our soldiers "over there," and here, find neither inspiration nor comfort in the consciousness that, on such a day, while the nation prayed for the hastening of peace, it carried them on its heart to Him—"Our help in ages past, our hope for years to come"?—Our Dumb Animals.

A happy man or woman is a better thing to find than a five-pound note. He or she is a radiating focus of good will. Their entrance into a room is as though another candle were lighted.—Robert Louis Stevenson.

## SEEING THINGS

The artist was painting—sunset, red, white, blue streaks and green dots.

The old rustic, at a respectable distance, was watching. "Ah," said the artist, looking up suddenly, "perhaps to you, too, nature has opened her sky pictures

page by page? Have you seen the lambent flame at dawn leaping across the livid east; the red stained sulphurous islets floating in the lake of fire in the west; the ragged clouds at midnight, black as raven's wings, blotting out the shuddering moon?" "No," replied the rustic shortly; "not since I signed the pledge."

Remember the Red Cross concert

Eustace A. Rowley, gun captain  
on a United States vessel was a week-  
end guest at the home of his parents,  
Mr. and Mrs. L. T. Rowley, 222 Bel-  
mont St.

Gilbert Cowan, who is a member  
of an aero squadron at an Atlantic  
seaport city, contributes a censored  
letter to this issue of the Evening  
News.

Mrs. Joseph Williamson of Los An-  
geles, is spending the day with Mrs.  
E. L. Early of 216 Blanche avenue.  
Last Friday Mrs. Early entertained  
Mr. and Mrs. A. N. Watson of Bur-  
bank.

Mrs. R. W. Meeker who went to  
Santa Barbara to attend the Con-  
vention of the District Federation of  
Women's Clubs, is remaining for a  
visit with friends and will probably  
not return for a week or more.

Mrs. Dan Campbell of 1750 High-  
land avenue, North Glendale, went  
to the home of Dr. Campbell in Los  
Angeles last week to be treated for  
a minor illness. It was not very se-  
rious and she is recuperating nicely.

Mr. and Mrs. C. O. Pulliam went  
Sunday to Santa Barbara, being cal-  
led there on account of the death  
of the mother-in-law of Mrs. Palmen-  
ter. Mr. Pulliam's sister. They will  
return this evening accompanied by  
Mrs. Palmerter.

Mr. and Mrs. McPeak of Los An-  
geles motored to Glendale Sunday  
with friends from the east. Mr. and  
Mrs. Cooper who are their guests,  
and called at the home of Arthur  
Campbell, 1650 Highland avenue,  
North Glendale.

S. W. Shaull of San Fernando  
boulevard, who went east to Detroit  
the first of the year in connection  
with a big law case and who expected  
to return to California in February,  
has been called to New York City on  
another case and will not get home  
until some time in March.

Rev. W. E. Edmonds after visiting  
in Baltimore and New York has moved  
westward to Chicago where he is  
visiting friends. He writes that he is  
enjoying the "unusual weather"  
which is said to be the coldest in one  
hundred years, and that he will prob-  
ably get home the last of the month.

Mr. and Mrs. J. F. Hearnshaw of  
1458 Lomita avenue, had the pleas-  
ure of entertaining three friends  
from Chicago Sunday afternoon. Mr.  
and Mrs. W. Noelle and Miss May  
Kent. Miss Kent is a nurse who has  
been here since December and who  
likes it so well she is planning to re-  
main. While Mr. Hearnshaw was  
showing them through the beautiful  
Elks Club House, Mrs. Hearnshaw  
took a little auto spin with Mr. and  
Mrs. Sanders to Santa Monica and  
back. In the late afternoon and even-  
ing other friends from Chicago, Mr.  
and Mrs. P. Lorraine, came over from  
Alhambra to enjoy the hospitality of  
the Hearnshaw family.

**RED CROSS NOTES**

Dr. Henry R. Harrower has ar-  
ranged with the president of the  
Glendale Music Company, Mr. Salyer,  
for a piano which will be placed in  
the Red Cross headquarters above  
the Bank of Glendale on Brand  
boulevard. This will be very nice for  
the afternoon programs which are to  
begin shortly. In this connection it is  
hoped that members of the Red  
Cross will arrange to attend the Red  
Cross concert tomorrow night and if  
possible bring friends who are not  
yet members.

Here is a chance for talent to do  
something for the Red Cross as the  
plan for these afternoons contem-  
plates something different each time  
in the way of entertainment. Doctor  
Harrower has charge of this feature  
and is asking for volunteers for  
such service. Every man, woman and  
child in Glendale who can "do some-  
thing" in a semi-professional way,  
who can sing, play an instrument,  
recite, dance, make lightning car-  
toons, do sleight of hand work, lec-  
ture, give lantern talks, or entertain  
in any capacity, is asked to report  
to the doctor by letter or to tele-  
phone his office, Glendale 43, if he or  
she is willing to help.

Mrs. A. S. Chase, Chairman of  
Packing, and the chairmen of the  
various departments, Mrs. Betz, Mrs.  
Ellis, Mrs. Tuft and others, will  
probably have a very busy day to-  
morrow as shipments are to be made  
of ambulance garments, surgical  
dressings, knitted sweaters and hel-  
mets and hospital garments. These  
will be sent to the headquarters at  
San Francisco.

A representative of the Los An-  
geles Chapter, Mr. Jamison, who is  
bookkeeper of its stock department,  
visited the Glendale Chapter today  
and was so impressed with the leath-  
er waistcoats which are being made  
there under direction of Miss Grif-  
fith that he asked the privilege of  
taking one to Los Angeles to be ex-  
hibited as a sample.

**UNITED MINDS ARE MINDS OF  
POWER**

(Contributed)

Rev. A. William Goetz, pastor of  
the Occult Science of Christ Church,  
Hurt's Hall, Glendale, in speaking  
on the subject of the Mental Trinity  
said in part:

We have the conscious mind, the  
sub-conscious and the super-con-  
scious minds. All of these minds are  
found in life. The ideal individual is  
the one who has each of the planes  
of mental expression united into one.  
The conscious mind is that mind  
which makes you conscious of think-  
ing. It makes you conscious of the  
sunshine, of hunger and cold. It is  
that mind wherein, are all of man's  
doubts and fears. The conscious  
mind is also called the intellect.

The sub-conscious mind is that  
mind that has a record of all the ex-  
periences of the soul's journey  
through life and has the knowledge  
of your daily life. It is the store house  
of experience. Someone speaks to  
you, and you do not remember to  
have seen them but all at once you  
remember all about them. It is the  
sub-conscious mind that brings it to  
your mind again. The sub-conscious  
mind is not the seat of all knowledge,  
but it is the store house of all you  
have ever learned. When I tell you  
that you cannot forget anything I  
am telling you the truth. When you  
come in touch with this mind every-  
thing you have ever learned will be  
brought to you again. When you look  
into the sub-conscious mind you find  
there a picture of memories and  
deeds in fact all that you ever did  
is in that store house.

In the super-conscious mind lieth  
all knowledge, all wisdom and all  
power. It is the Divine or God Mind  
and it includes the minds of every  
creature. It is also called the Uni-  
versal Mind and holds the knowledge  
of all. It is through this mind that  
God knows about the deeds of all.  
From the super-conscious mind there  
comes to the sub-conscious mind  
knowledge. Every good and perfect  
gift is from above. James 1:17. That  
is the description of the super-con-  
scious mind. When we can be still in  
mind, (and anyone with practice can  
do this), you can unite the conscious  
with the sub-conscious mind and the  
sub-conscious with the super-con-  
scious or God Mind and then become  
a power for good in the world. In the  
uniting of these three planes of men-  
tal life lies all knowledge. Learn to  
know yourself a little better. Begin  
now to concentrate and begin to  
know the sub-conscious mind and  
explore the realms of knowledge.  
Learn to shut your eyes to all the  
world and know only the God of the  
Universe. From the source of all the  
vast sea of minds cometh the source  
of knowledge.

**PATRIOTIC HYMN**

Mrs. W. S. Carmichael of 433 Ce-  
dar street, a prominent worker in  
the Broadway Parent-Teacher Asso-  
ciation, has composed the following  
patriotic hymn to be sung to the  
tune of America. This will be found  
very appropriate to sing at public  
gatherings, especially this week and  
next when we are celebrating the  
birthdays of our war presidents.

(Tune, America)  
God bless our native land,  
Sweet land of liberty,  
Let nought befall  
Our God of battle be  
God grant us victory  
Where right, not might may be  
Justice for all.

God bless our President  
Our loyal President  
Keep him always—  
Give him Thy strength to lead  
Keep us from nations greed  
Thy will, we may succeed  
God speed the day.

God bless our soldier boys,  
Our sailor lads and men,  
God bless them all.  
Keep our red, white and blue  
Still floating over you  
To God and man be true  
God save you all.

God save our soldier boys  
Our sailor lads and men  
We tribute bring.  
Our victories increase  
We pray this war may cease  
O give us world wide peace.  
Great God our King.  
—Mrs. W. S. Carmichael.

**TOWARDS DEMOCRACY CLUB**

The Towards Democracy Club met  
at 1330 Colorado boulevard Sunday  
evening at 7:30. At the recent meet-  
ing W. D. Hoffman led the discussion  
by an address on The True Social  
Order, which will be published lat-  
er. After the topic which proved to  
be the single tax, was discussed by  
Messrs. Robbins, Durham, McQuivey  
Robinson, Webb, Gillhausen, Bel-  
den, and Mesdames Hoffman, Salyer,  
Wright, Robinson and others a  
friendly argument was taken up by  
Mr. Hoffman and Mr. C. A. Salyer  
which by close adherence to defini-  
tions ended happily in a virtual  
agreement.

Arrangements were completed for  
the Pinchon lecture. All were anxious  
to help to fill the auditorium next  
Saturday evening.

There came to brighten the home  
of Mr. and Mrs. G. E. Burson, 827  
West Seventh street, on February 5,  
a little daughter, Miss Wyona Grace.

**"HAIL TO OUR HERO," ABRAHAM  
LINCOLN**

Air: "Throw Out the Life Line."  
By SAMUEL PARKER

To good will and greetings give abso-  
lute sway,  
A grand celebration we're holding  
today.  
Not for an Emperor, Czar or a King,  
But for Noble Lincoln our tribute,  
we bring.

CHORUS:  
Hail to our Hero—Hail to our Hero—  
Precious his memory today;  
Hail to our Hero—Hail to our Hero—  
Love for him shall not decay.

Having met thus in his honor, let  
each,  
Tell of his greatness in song and  
in speech—  
His was the edict that finally gave  
Freedom's great boon to the down-  
trodden slave.

CHORUS:  
Highest of all in the Temple of Fame,  
See our illustrious Commoner's  
name.  
Far more enduring than monument  
arts  
Is love for our Lincoln enshrined  
in our hearts.

CHORUS:  
His motto, "Keep close to the peo-  
ple" commands  
Attention of rulers in less favored  
lands;  
Hope for the people that sentiment  
brings  
And modifies rule of the Czars and  
the Kings.

CHORUS:  
Patriot fires burn anew in each  
breast,  
Peace crowns the land that in dy-  
ing he blest.  
Pledge we anew that the people shall  
rule,  
Stand by the home and the flag  
and the school.  
CHORUS:  
Glendale, Cal., Feb. 12, 1918.

**PLEA FOR LOYALTY**

Father O'Neill in his Sunday  
morning talk at the Holy Family  
Church said: "A good Catholic is a  
good citizen. We are all in the same  
ship—the good, staunch ship Amer-  
ica. Let us then pull hard and all  
pull together. We owe it to each  
other and we owe our services to  
our leader. Our means should be  
freely placed at the disposal of our  
country and we should be ready, if  
useful, to give our lives if necessary.  
In the American revolution we Cath-  
olics were publicly praised by the  
'Father of our Country' for doing our  
duty nobly, and there is every rea-  
son why Catholics should receive the  
same praise in the present war, as  
more than 40 per cent of their num-  
ber are engaged in both arms of the  
service. Facts have driven the calum-  
nators of our church into their  
holes and guardians of humbug and  
other social soreheads must remain  
dumb when confronted with the evi-  
dence that condemns their vile ac-  
cusations."

**ABRAHAM LINCOLN**

"Lincoln belongs to all the world"  
Air "A Thousand Years."  
By SAMUEL PARKER

Patriots, join in song of freedom,  
Let it resound from shore to shore;  
Birthday return of our own Lincoln  
Calls for our loudest praise once  
more.

CHORUS  
Over this land where floats "Old  
Glory,"  
Brighter his fame as years sweep  
by;  
Mention his name in song and story—  
"One of the few not born to die."

Lincoln our own; the field's too nar-  
row;  
Let no selfish banner be unfurled;  
While there's a slave involved in  
sorrow,  
Lincoln belongs to all the world.  
CHORUS:

His was the task to crush secession—  
The glorious union of states to  
save.  
Lo, the result! One banner o'er us;  
And there is not in the land a  
slave.  
CHORUS:

Many a name is soon forgotten,  
Shines for a time, then disappears;  
Lincoln's with age shall gather  
luster,  
Shining right on—"a thousand  
years."

CHORUS:  
Glendale, Cal., Feb. 12th, 1918.

**PINCHON LECTURE**

A free lecture will be given in the  
High School Auditorium next Sat-  
urday evening, February 16 at 8  
o'clock by Edgcomb Pinchon on "The  
Industrial Union of North and  
South America," as this country calls  
itself.

It is the story of an absolutely  
free people who have dropped into  
the natural order of living; merely  
good table manners carried into all  
life. A wonderful story of the recent  
past history, tragedy and happy pres-  
ent of these people of Zapatlana.

**UNITED STATES SHIP YARD VOL-  
UNTEERS**

In order that skilled men for work  
in the ship yards, may be obtained  
promptly as they are needed, a de-  
partment for the enrollment of such  
men has been established in connec-  
tion with the U. S. Public Service  
Reserve. Mr. William L. Clark, at  
207 South Broadway, Los Angeles, is  
Superintendent for this division. Mr.  
Clark has appointed Mr. J. C. Sherer,  
City Clerk at the City Hall to repre-  
sent him and accept registrations. It  
is desired that every workman who  
is skilled in any line of work requir-  
ed in ship building, join the Ship-  
yard Volunteers by registering as a  
member thereof. Blanks can be ob-  
tained and registration made at the  
Clerk's office in the City Hall. No  
obligation is incurred by registra-  
tion; it is however a patriotic service  
which may result in obtaining for  
the person registering very desirable  
employment, not immediately but in  
the near future.

**THE GREATEST CHALLENGE OF  
HISTORY**

That the present world struggle  
presents to the church of Christ a  
mighty moral challenge, was the  
statement of Pastor G. A. Snyder, in  
his sermon at the Glendale Seventh-  
day Adventist church at Third and  
Isabel streets, at the regular service

last Saturday morning. He mention-  
ed that each denomination is meet-  
ing it in its own way, the Catholics  
sending thousands of priests to the  
front, and the Y. M. C. A. doing a  
mighty humanitarian work, having  
asked for thirty-five million dollars  
in donations, and having received  
fifty-one millions.

"To Seventh-day Adventists this  
present crisis brings a new Era,"  
Mr. Snyder said. "It is to us the  
greatest challenge in all our history.  
War did not take us by surprise. We  
had expected it for almost a genera-  
tion. Yet never before have we come  
to such a time as this. It remains to  
be seen how we shall meet the  
crisis."

## AT PEACE AT LAST

The following incident of the war is too beautiful for any of us to miss whatever his religious beliefs. It is taken from a sermon by Archbishop Glennon:

A French soldier, wounded in a recent attack on the German trenches, related the incident.

"Near me," he says, "lay two soldiers, mortally wounded; one a Bavarian, young and fair-haired, with a gaping wound in his stomach, and the other a young Frenchman, hit in the side and head.

"Both were in mortal pain, and growing paler and paler. I saw a feeble movement on the part of the Frenchman. He painfully slipped his hand under his coat for something hidden away under his breast. He drew out a little silver crucifix which he pressed to his lips. Feebly, but clearly, he began: 'Hail Mary, full of grace.'

"The Bavarian opened his blue eyes, which were already glazed with approaching death, turned his head toward the Frenchman, and with a look, not of hate, but almost of love, finished in a moment the prayer, 'Holy Mary, Mother of God, pray for us sinners now and at the hour of death.'

"The eyes of the two men met, and they understood. They were two companions in like misfortune desiring to die believing according to their faith. The Frenchman held out his crucifix to the other, who kissed it, and taking him by the hand said: 'Having served our countries, let us go to God reconciled.'—Our Dumb Animals.

## NEW COURSES ADDED TO MEDICAL TRAINING CAMPS

Ten new sections are included in the courses for officers in medical training camps at Fort Oglethorpe, Ga., and Fort Riley, Kans. Fort Riley has a capacity of 7,000 men, and enlargement of the school at Fort Oglethorpe to the same size has been authorized, its present capacity being 5,500. The ultimate needs of the Medical Department of the Army look to training camps with capacities totaling 35,000 to 40,000 officers and men.

There have been graduated from medical training camps since June 1, or are now under instruction, about 9,000 officers and 20,000 enlisted men. Various groups now in active service have been trained, including officers and men, to operate ambulance companies, field hospitals, evacuation hospitals, base hospitals, and hospital trains.

## MEN OVER FORTY-FIVE

The employment bureau of the Chicago Employers' association recently undertook to find work for men over 45 years of age, who ordinarily have difficulty in obtaining positions. During the past year they report having found jobs for 9,190 such. The bureau reports that it has found that gray hairs indicate the age of discretion. Many other employment agencies are reported to be making a special effort to find places for older men.

This is a matter in which the mental attitude of the older men has been partly to blame. It is not for imaginary reasons that so many concerns insist upon having young men. And it is not, so much as people think, because the older men lack energy. A great many of them are full of "pep" and life. Considering that they work with judgment and experience, they can accomplish a great deal.

The trouble with the older man is usually that he gets too set in a certain rut. Also he is more apt to become discouraged. He looks back on his past experience and sees a good many disappointments and failures. So when he has made a few tries at a thing, he is apt to quit and say it can't be done.

An elderly man does not need to work with the high speed and feverish energy of youth. That kind of effort is frequently so ill judged that it is not successful. What is needed is the willingness to keep trying out new things, even if previous experiments do prove futile.

No elderly man ought to be satisfied to run along a week in the old groove. He ought always to be thinking how he can beat his old record. The man who can keep up that habit of mind is not likely to be thrown out of a position because of his age. If he is thrown out he will get a recommendation that will give him a new chance.—Berkeley Gazette.

## DANGER OF CHANGE OF FAITH

A party of American ministers who were attending a Pan-Presbyterian Congress in Scotland went to survey the classic borderland. The end of a bridge bears a notice that not more than ten people are allowed on it at once; but the ministers disregarded this, and went on in a body.

The bridge collector saw them from his little sentry-box and rushed out.

"Back off that bridge!" he shouted.

"But my good man," expostulated the foremost, "do you know that we are members of the Pan-Presbyterian Congress?"

"Ye may call yourselves Pan-Presbyterian or pot-Presbyterian," roared the collector, "but if ye no gang off that bridge ye'll be Baptists in two meenits."—Sacred Heart Review.

## OFFICIAL FOOD NEWS

Potatoes were officially placed on the list of wheat flour substitutes by order of the United States Food Administration for California, it was announced. Retail grocers throughout the state will be affected.

Grocers will be required to sell potatoes in the ratio of two to one, that is, if the patriotic housewife buys one pound of white flour she will purchase two pounds of potatoes, or if supplied with that staple, she may purchase an equal quantity of substitute flour with the white variety.

The new ruling was promulgated with a view to increasing the number of substitutes for wheat products, greater saving of which is necessary to supply the needs of the Allied nations, and to stimulate consumption of potatoes, of which there is an apparent surplus in the state.

Housewives are urged to serve potatoes in place of "Victory" bread or any bread containing wheat flour or wheat products.

Present potato prices will not be allowed to soar as a result of the order, the food administration announced. Any increase either by the jobber, producer or the retailer will be met by an official order removing potatoes from the list of substitutes.

Potato dealers from various sections throughout California have complained to the food administration that sales had recently suffered a sharp decline and asked for relief as a measure to encourage planting of potatoes this spring. Decreased consumption on the part of the public for an apparent unexplainable reason, was blamed for the present glut of the market.

Rice was also placed in the list of white flour substitutes along with potatoes, with orders that retailers sell it pound for pound with white flour. Choice of these substitutes to be purchased with the white flour is of course left with the consumer, although the administration urges the greatest possible consumption of potatoes.

## COMMON ENEMIES

First Bystander (watching two men fighting)—Can't somebody part them?

Second Bystander—Keep back! Don't interfere! One is an iceman and the other is in the coal combine. Maybe they'll both get hurt.

## SAVED HIS OWN FACE

Colonel E. M. House—"Silent House" as he is often called—told at a dinner in Washington a significant parable:

"They who expect the men in authority to do a great deal for them—they who expect the impossible—should remember the grizzly bear story.

"A famous grizzly bear hunter gave a dinner, and one of the guests told of a bear hunt that he had once shared in with his host. It had been a remarkable hunt. The bear had been killed under almost incredible difficulties. Although his auditors looked skeptical, the narrator did not spare them any of those difficulties. He counted on the host, you see, for corroboration.

"Then, when he had finished his strange but perfectly true tale, he said:

"There, that's the story, and, gentlemen, our host will corroborate every word I say."

"No, George," he said, 'I don't remember anything of the sort at all.'

"Tableau!"

"Maddened by this tableau, the guest at the end of the dinner took his host aside and hissed:

"Why didn't you back me up in that bear story? You know every word of it was true."

"Yes," said the famous hunter—"yes, it was all true, but I saw that everybody round the table thought you were lying. If, then, I had supported you the only result would have been that they would have set me down for a liar too."—Washington Star.

## JACK OF ALL TRADES

SALEM, Oregon, Feb. 11.—Return of questionnaires have shown that Uncle Sam has every occupation well represented within the ranks of his potential soldiers. But when it comes to versatility, no one has it on James Hardesty. Regarding his occupational experience, he listed:

Newsboy, messenger boy, farmer, hayfield worker, fruit picker, teamster and mule skinner, sewing machine repairman, bicycle, motorcycle and automobile mechanic, florist, hodcarrier, sideshow barker, watchman, steel shipyard worker, swimming instructor, pipefitter, waiter, concrete worker, watchman, automobile assembler, cook, plumber, movie and cabaret singer, railroad worker and electrician's assistant. Hardesty waived deferred classification rights.

"Typographical errors," said William Dean Howells, "are always amusing. When I was a boy in my father's printing office in Martin's Ferry, I once made a good typographical error. My father had written, 'The showers last week, though copious, were not sufficient for the millmen.' I set it up 'milkmen.'"

According to our observation the happiest combination in the world is a husband too poor to buy an automobile and whose wife is afraid to ride in one.

## WITH AERO SQUADRON

(Continued from Page One) roster of this squadron from all over the United States.

There are lots of funny things around an army camp. Among them are the cur dogs. One St. Bernard shepherd dog adopted the squadron and sleeps on the porch of our new, modern barracks building. Who he belongs to, nobody knows. To me, the snow and cold weather are funny—dare I call disagreeable climate funny. It strikes me that a little canned California sunlight would do some good—especially at 4 a. m. about two hours before we get up. By 6 a. m. we are ready for breakfast and start work around 7:30. There are no union hours in the army and a walking delegate could only qualify for guard duty here without getting a machine.

Practically all of we aviation section fellows are given experience aviating dirt with a pick or a shovel, the latter being called "our machines." It takes a husky stenographer to get by here. During the morning I had my fatigue clothes on and cleaning up about the barracks as well as working in the office taking dictation. "Really, Agnes, I don't give a darn what I do for it has to be done," wrote one bank clerk yesterday. Our bunch (I wasn't in it) made a record for shovelling coal yesterday.

Most of the fellows are pen-pushers or chauffeurs, but they are versatile and can do anything from laundry to writing for the newspapers.

Everybody makes the best of this war stuff for they know that when Kaiser Bill has to get out and dig like we soldiers do, the world will be safe for an honest man. And the aforesaid "Bill" is going to work mighty hard to outdig and outfight the clean, happy bunch of American lads who are going across the pond.

Believe me folks, if you could see the preparations throughout the country which the U. S. is making—and I have had a passing glimpse of the first act of our big show—there wouldn't be any stopping of your thrift or bond subscriptions.

I hope to be "over there" when the bottom drops out of the German wheat sack and the poor deluded followers of an unreasonable Kultur accept our ideas of absolute liberty. There is no element of hate in our fighting force unless it is the fact that we Americans hate to argue with anyone at the point of a gun. But if these boys with me and "over there" already have to paint the Germans red in order to talk to William, his war party and the victims of their system. Uncle Sam's nephews are able to do a thorough job.

With the best wishes to all of you, I shall close for the present.

## FOR WHAT ARE MEN MADE?

(Contributed)

Some people were made to be soldiers,

But the Irish were made to be cops. Sauer Kraut was made for the Germans—

Spaghetti was made for the wops. Fish were made to drink water,

Bums were made to drink booze—Banks were made to keep money

Money was made for the Jews. Everything was made for something,

Every thing but a miser—God made President Wilson

But who in hell made the Kaiser?

A young reporter had been assigned to cover a town ball. Later the city editor was going over his copy. "Look here," suddenly exclaimed the editor, "What do you mean by writing 'Among the beautiful girls was Councilman Walter Moore'? He isn't a beautiful girl, you dub." "I can't help that," responded the reporter, "that's where he was."

## NOTICE OF PUBLIC WORK

Public notice is hereby given that the Board of Trustees of the City of Glendale, on the 31st day of January, 1918, did at its meeting on said day adopt a Resolution of Intention No. 982, to order the following improvement to be made to-wit:

That the Public necessity and convenience require and it is the intention of the Board of Trustees of the City of Glendale, to close up, vacate and abandon for street and highway purposes, all that certain portion of Colorado Street (formerly Sixth Street) in the City of Glendale, described as follows, to-wit:

All that portion of Colorado Street (formerly Sixth Street) lying South of a line drawn parallel with and sixty (60) feet Southerly from, measured at right angles to the northerly line of Lot "A" of Tract Number 1178, as per map recorded in Book 18, page 23 of Maps, Records of Los Angeles County, California and lying between the Southerly prolongation of the Westerly line of Lot 4 of said Tract No. 1178 and the Westerly line of Verdugo Road.

The district to be assessed to pay the damages, cost and expenses for the above described improvement is described in and reference is hereby made to said Resolution of Intention No. 982, for further particulars of said work.

## DISTRICT FEDERATION

(Continued from Page 1) and Dr. Silas Evans, president of Occidental College came up to speak before us. We had big things.

"Of course the department work was reported in very fine addresses made by the different chairmen of our board, among them Miss Mary Foy who spoke on 'World Democracy.'

"Then we had the finest of music from the beginning to the end. We opened the day with the salute to the flag and at each morning session had musical numbers from the different clubs, in the afternoon union singing.

"On the last evening, which was International Night, Dr. Evans made the address 'America Sees It Through,' which was followed by the music of the allied nations, in costume. It was a wonderful program and we were not able to seat all who came. People stood in the balconies as well as at the rear of the room. This program was under the direction of Bessie Bartlett Frankel, Chairman of Music. The Music Section of the Long Beach Club gave us Russian music, Mrs. Hazel White of the Hollywood Woman's Club sang a group of Old English Songs, in costume, Miss Lucy Woolcott of the Long Beach Music Club a group of French songs, and with Gertrude Ross at the piano, Miss Grace Widnew Babee sang six of her latest Japanese songs. American music was presented by the federated clubs of Santa Barbara County in costume, who gave us 'Suanee River,' 'Old Kentucky Home,' and 'The Girl I Left Behind Me.' Then the entire audience arose and sang America, and the meeting was adjourned. It was most impressive."

Side lights on the convention have also been given by Dr. Jessie Russell, another Glendale woman who is always a central figure at such gatherings. She says:

"This convention will go down in history as probably the most successful one in the annals of clubdom, all things considered. The complications incident to the war failed to reduce the attendance which was the largest ever recorded at a district convention.

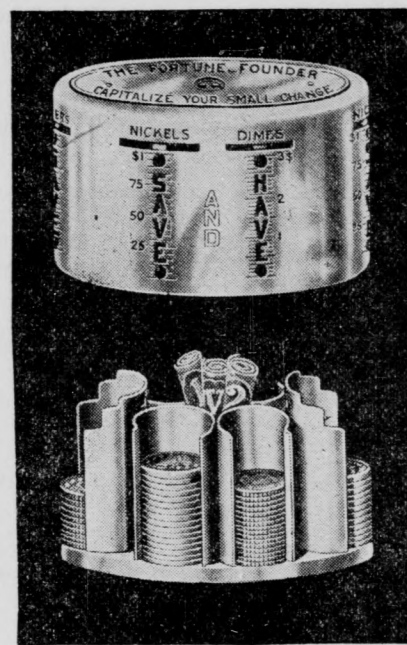

"Although the program provided opportunities for recreation and relaxation the atmosphere of the convention was one of serious consideration. The problems bearing on war activities were discussed with patriotic enthusiasm. The many discussions pertaining to amendments to the constitution and bylaws were conducted with due consideration for the conservation of energy, while a splendid spirit of harmony and patriotic endeavor prevailed. The reports of officers and chairmen were of unusual interest dealing in a large measure with the solving of problems pertaining to the war and war service.

"The reports of club presidents showed a united determination to cooperate in all lines of war service. The report of the Glendale Tuesday Afternoon Club, given by Mrs. H. S. Duffield (representative of the President, Mrs. A. W. Ramsay, who was unable to attend the convention) received a round of applause. The report of The Tropico Thursday Afternoon Club also received applause, especially when the representative emphasized the fact that while actively engaged in the lines of war service the club did not forget local needs.

"Special features of Wednesday's program were the delightful reception at the Women's Club House in honor of Mrs. Josiah Evans Cowles, President G. F. W. C., Mrs. H. A. Cable, President C. F. W. C. and Mrs. Mattison B. Jones, President Los Angeles District C. F. W. C. The evening program included an address of welcome by Mrs. M. A. Levy, President Santa Barbara Club; response, Mrs. Jones, which, by the way, was one of the best addresses on an exceptionally brilliant convention program; State President's message by Mrs. H. A. Cable, who gave one of the eloquent addresses for which she is noted. These addresses interspersed with music were followed by a program of Spanish Dances, Spanish music and an exhibition of rare old Spanish relics in charge of the Santa Barbara Native Daughters.

"Probably the most unique program ever given at a club convention was arranged for Thursday evening when a pageant representing the directory of the Los Angeles District Federation, illustrated, was given. The prologue, given by Bessie Bartlett Frankel and written by her father, A. G. Bartlett, was one of the gems of the convention. As the huge pages of the familiar blue directory were turned there appeared in rapid succession the officers and chairmen of departments. A burst of applause greeted the president, Mrs. Jones, as she stepped into view impersonating
